# Music

## Barleycorn and Friends

As well as traditional folk songs, Barleycorn put a folky twist on classic pop songs from the 60's onwards.

## The Great American Songbook

Expect classics from Sinatra, Fitzgerald, Buble, Dean Martin etc.

Singer and songwriter Rich Adams has earned his stripes as a musician and veteran of endless gigs in a dizzying range of genres. His is a lifetime spent in some of the worst and best venues in Britain and (a tiny bit of) Europe. "I just can't seem to stop doing it," he says.

As a result his music is a bit of soul, a bit of folk, rock, blues, swing, and a peculiarly English Americana. His experience has also made him the proud owner of a versatile and passionate voice, capable of reaching into the very corners of a song. "I guess I can sing a bit at least."
